

7.3 Institutional Distinctiveness

The institute has an objective of providing academic programmes in a stimulating and Conducive environment, for the intellectual and ethical growth of diverse student community focusing on building synergy. The Institution strives to provide a holistic and inclusive education which includes **skill development, experiential learning, collaborations, value based education, and exchange programs**. The institution, true to its vision, inculcates quality education by augmenting professional and relational competencies for innovation, entrepreneurship, and capability enhancement of students to be self-reliant and socially responsible citizens. The Institution has signed national and international MOU's with industries and academic institutions to provide skill based training and certificate programs, internships, industrial visits, seminars, conference, joint workshops, faculty and student exchange programs to enrich entrepreneurial traits such as leadership, perseverance, creativity, passion, values and ethics.

Academic calendar highlights various activities like seminars, conferences, workshops, extension, lectures, special occasions, awareness camps and rallies, charity and donation programs, study tours and industrial visits. The students are provided **scholarships and freeships** based on their merit and the economic strata. Fees concessions for the employees children are also provided. The faculty are given financial support for research activities and duty leaves to participate in various orientation programs, refresher courses, faculty development programs and workshops. Communal harmony, tolerance and national integration is promoted through invited talks, cultural competitions and **celebration of Indian festivals, commemoration of special days**. Value education classes for students are conducted on the first Friday of every month.

To empower the economically weaker section students, the departments and ED cell of the institution provides projects like "**Lab to Land**", "**Earn while you Learn**" and "**Entrepreneurs Meet**". Patrician Incubation Centre in collaboration with Wadhvani Foundation, Bharathiya Yuva Sakthi Trust, EDII & University of Madras ED hub, and Mahatma Gandhi National Council of Rural Education, MoE, provides facilities like training to develop prototype, counseling and mentoring, marketing, to become job providers rather than job seekers. To showcase their business ideas and products students are encouraged to participate in various state and national level hackathons and projects expos through Institution Innovation council.

During the pandemic, to be self-reliant the students with the institution support developed a sanitizer sensor machine and the sanitizers which aligns with the national objectives of **Athmanirbhar and Make in India**.

Extra-curricular activities are focused by the institution for honing the personality of the students. Many students emerge as speakers, artists, dancers, painters, writers, motivators, photographers, entrepreneurs and establish themselves as professionals and many of them have opened their academies and business units. The institution with the motive of "**Reach the Unreached**" has made all the I year students to take part mandatorily 40 hrs Uniques extension program "**SEEDS**" in association with Government and Non-Government organizations.

REPORT ON PATRICIAN ENTREPRENEURSHIP STUDENTS MELA

Date: 10/12/2021

Venue: OAT

INVITATION

OBJECTIVES OF THE PROGRAMME:

- To inculcate the entrepreneurial skill among students.
- To increase their level of confidence.
- To create employment opportunities

OUTCOMES OF THE PROGRAMME:

Students increase their awareness and deliberately practice the skills and discipline to increase their confidence. They advance their skills in handling customers, pricing strategies, inventory management; improve communication and problem solving, manage strong impulse feelings and identify personal purpose. Developing knowledge on entrepreneurship need not make a person an entrepreneur, but it will definitely nurture an enterprising mind-set which leads one towards excellence in college and beyond the years.

FEEDBACK OF THE PROGRAMME:

Students are very actively participating in laying the stalls; they felt an amazing experience in dealing with customers. It was very helpful for the students to develop opportunities.

PARTICIPANTS:

Around 500 Students participated in this programme.

PHOTOS FROM THE PROGRAM

**OBJECTIVE:**

Its main objective was to bridge the gap between the LAB to LAND concept. This Initiative was started to give practical knowledge on the concept of Mushroom cultivation through Hands on training. It focussed on catering to the students in starting with their own income generation plans. The concept of marketing was also taught to the students.

FEEDBACK:

- The program was really useful and innovative.
- It has helped the students to start and plan their career as entrepreneurs.
- It helped them to get a clear view of the career options.
- Hands on training gave the crystal clear detailing in all the aspects of the Mushroom cultivation.
